

# The Adair County News.

VOLUME 10

COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY, NOVEMBER 21, 1906.

NUMBER 2

## RUN-A-WAY.

Last Friday morning as Mr. Clint Smith, an employee of Fife and Browning, livermen, of this city, was driving a double team out the Crocus road, one of the horses stumbled, falling to the ground. In his fall he broke the swingletree and fell far enough in front to dislodge the breast-yoke, completely losing himself from the vehicle. The other animal became frightened and soon both got away from Mr. Smith and ran for a distance of nearly a mile. One of the horses ran the yoke into its breast several inches, which made a bad wound.

Fortunately they had detached themselves from the surrey and it was not hurt.

## STIR 'EM UP.

We suggest that the Adair County Farmers' Club get up some money and offer premiums for the best acre of corn, oats and other products for next year and by this means stimulate some who will probably be indifferent otherwise. The fact is that if 12 men could be induced to enter the contest on corn there would be 12 acres put in the highest state of cultivation, best seed used and best cultivation. There would be 12 men to testify next fall and show the result of good methods. Likewise on another grain. Keep the interest at the highest point for good results, offer good premiums.

## FROM REV. F. E. LEWIS.

GREENVILLE, KY.,—Nov. 16, 1906.  
Editor News:

I enclose \$1.00 to pay arrearage on my News. You have the Livestock county paper in the state, I think. I am glad to see you advocate graded schools for Columbia. I think that is what every town of any size ought to have. It always proves a paying investment and would not be a disadvantage to the two Educational Institutions located there. It would be a benefit to them. They are not designed to take the place of graded public schools, but to take up the work where those leave off. Hope to see you all at Columbia next fall. Your old friend,  
F. E. Lewis.

## PROBLEM IN SCIENCE.

Science teaches that every individual changes every seven years. There is an abundance of evidence to support this theory, and yet a superabundance to upset it if a newspaper man's books should be taken as competent evidence. It is not uncommon for some to come in and pay up \$7.00 arrearage and yet there are quite a number who fail to do so. Those who pay that amount evidently have been made over while those who fail to do so remain the same old makeup of 7 years ago.

## GOOD PRODUCTION.

Gov. J. R. Hindman received a bushel of seed corn last spring from Commissioner Vreeland which he planted on his Big Creek farm. It was fairly well cultivated and when gathered a few days ago rounded up 20 barrels nearly all of it being unusually large. Governor is a member of the Farmers Club recently organized, in Columbia, and will prove a valuable as well as an active member.

## MAY BE! MAY BE NOT.

In a copy of The Evening Graphic, of November 11th, published at Pine Bluff, Ark., we notice that one Dr. J. D. Russell is prospecting in that section for oil and according to his views, the prospects are very fine and in all probability a number of wells will be bored. This is the same Dr. J. D. Russell that operated for oil in Adair a few months ago. Enough said.

The First National Bank has a statement in today's News. This institution, while only about two years old, is considered among the best banks of this section of the State. They offer you courteous treatment and the best inducements consistent with good business.

The beautiful Autumn weather, bright days and frosty nights, have been displaced with snow and rain.

## REGULAR MEETING OF CITY COUNCIL.

### Board of Supervisors Selected—Number of Small Claims Allowed, Etc.

At the regular meeting of the Columbia Council last Thursday evening the following were present: W. W. Bradshaw, Mayor; J. B. Coffey, A. S. Chewing, Horace Jeffries and Gordon Montgomery, Attorney. Only one member was absent, Mr. John O. Russell, on account of sickness.

The first business transacted was the allowing of a number of small claims in connection with the erection and operation of the crusher, placing the rock on the road, light bill and other matters.

It was decided to put crushed stone on Greensburg, Burksville and James-town streets first, and then begin the repaving of the side streets and Alleys. Messrs. Montgomery and Chewing are to superintend the work on Greensburg street; Bradshaw and Jeffries, Burksville street and J. O. Russell, James-town street. Mr. J. B. Coffey, one of the committee on roads, will superintend the street making from the Campbellville pike to S. H. Grinstead & Co. commission house, which is said to be in a very bad condition.

The council selected Messrs. W. A. Coffey, L. B. Hurt and W. F. Jeffries as the members of Board of Supervisors, which meets the first Monday in December.

An ordinance was passed, by a solid vote, which requires that nothing but brick houses may be erected on the square, and in the first alleys or streets next to the square.

## CAN'T USE THEM

We are in receipt of a letter, for publication, dealing entirely with religious matters and propounding questions which, if answered, would bring about a long controversy, and could not result in good to any one. The News does not desire such controversies and will not publish such communications. We want to live in peace; we want peace and good will to prevail throughout our country, consequently those who want to engage in worded wars are debarred from our columns.

## LESS TALK—MORE ROADS.

We may talk good roads till the twenty blasts of the twentieth century have passed and still be in the middle of a bad fix. The only way to have them is to build them. The town council has demonstrated the worth of the rock crusher and now the supervisors should get together, call such assistants as they deem proper and outline some definite course of action, on the part of the county, so that the people may live in hope and expectation. The sooner this question is settled the better it will be for the cause of good roads.

## VALUABLE TIMBER SOLD.

Last Friday M. Cravens bought from J. N. Murrell all of his merchantable oak 20 inches and over for \$4000. This is beyond question the most valuable and most desirable body of timber in this part of the country and many timber men have looked on with a desire to own it. Mr. Murrell only recently decided to sell it and when the price was made did not hang on the market 3 days. There are a great many extra fine trees and the purchaser is fortunate in picking up such a bargain. It is close up to town and all of it of easy access.

The vigor and growth of a community or town is not often the result of acting in the superlative degree of economy.

## SERVICES AT BAPTIST CHURCH.

The Rev. —Cook, of Canmer, preached two interesting sermons at the Baptist church in this city last Sunday. He is a forceful speaker and throughout both discourses showed earnestness to a remarkable degree.

All who heard him were highly pleased and especially the members of the church, who have under consideration calling him as pastor. Just what the church will do can not be stated as no action has yet been taken but from the expression of many of the members we feel safe in the statement that he will be called.

If the farmers fail to keep alive their organization, if they allow it to drag along without good results they will commit a great blunder. There is no doubt that prevailing methods of farming need improvement. The interest with a few is already aroused and it is their duty to stir their surroundings.

## ADAIR COUNTY COLONY.

### At Elida, N. M.—Chester Collins' House Burned—Other News.

Elida (N. M.) News.

Monday evening some one set fire to the house of Chester Collins, west of town. The criminal was pursued by several parties, but owing to his start and fleetness of his steed, he was not overtaken. Whoever the party may be it will pay him to keep in hiding. There is practically no devilry of this kind done around Elida, and our citizens will not stand for such outrages. Everyone should keep an eye open. This party will be detected and the punishment of the law meted out to him as it should be.

Bob Grissom left Wednesday for Oklahoma, where he goes to wind up his affairs preparatory to moving here. While here Mr. Grissom purchased the Johnson ranch. In conversation with a News reporter he stated that he would carry on a general stock-farming business and that a great deal of his land would be put in cultivation. Mr. Grissom ordered The News sent him while away.

Dr. Murrell is building a residence for his mother, who will arrive here in a few days.

Dr. Murrell is building in the south side of town.

Here is something that is worth many dollars to every farmer to know: Sprinkle lime in your stock tank and

not a particle of scum will form on the water. When the lime loses its strength scum will begin to form, which may be twice during the season, wash out the tank and repeat the dose. It is cheap, not only harmless but wholesome, keep the water sweet and saves the live stock

It is proposed that these breeders contribute the stallions, based on the advice of the member of the Legislature from each county will be placed in the hands of representative farmers who will stand them at a small fee.

## COL. T. P. HILL'S SPEECH

Nominating Col. Frank L. Wolford for Clerk of the Court of Appeals.

We reproduce the speech of Col. Thomas P. Hill, of Sasser, which was delivered in the Democratic State Convention at Frankfort, Ky., on January 12th, 1882, presenting the name of Col. Frank L. Wolford to the Convention as a candidate for the Democratic nomination for Clerk of the Court of Appeals.

Mr. Chairman:—I am directed by Lincoln county to present to this convention the name of Col. Frank L. Wolford, of Adair. I will not say that republicans are ungrateful, for I do not believe it, but I fear they are sometimes forgetful. Will this convention bear with me a very few minutes while I endeavor to recall to your minds a few of the many heroic titles which this gallant and able man has won to the respect of his country and to the gratitude of his party.

Many of us here, perhaps the most of us, remember the condition of the Democratic party of Kentucky in the year 1864. It was a memorable era in the history of that party. Disheartened, divided, sundered, it was without leaders, without organization, and without hope. The war was then in progress, and State and martial laws, and the writ of Habeas Corpus suspended. The courts were closed, the laws were mute, and property, personal liberty and life were held at the will of the military chieftain. A hostile and licentious soldiery, strangers to our soil, covered the State and hedged about every soul with their bayonets. The Democratic party was, and had long been in a minority in the State. The Union men of Kentucky, the Union soldiers, and the disbanded legions of the grand old Whig party were still uncertain where to go. In the confusion and chase of the times the path of duty and of patriotism had not yet been made plain to them. They wavered and hesitated. Never in the history of Kentucky was there a darker or more portentous day. At that crucial hour, at that supreme moment of suspense and peril, the Kentucky Democracy handed to Frank Wolford the banner of Constitutional liberty, the flag of Jefferson, their flags. It carried with it then no easily won honors; it led to no fat preferments then. With no hope of reward, but with full knowledge of the peril and the odium he incurred, he took up that banner, that glorious ensign of liberty and law. How proudly, how faithfully, how fearlessly he bore it through that campaign I need not pause to tell. By the rivers' banks, on the mountain tops, in hamlet, dae and glen, the eloquent and solitary voice of Wolford was heard for free thought, free speech, a free press, free men, and for that great writ, which is the chart of liberty wherever over the earth the Saxon race may be found. He was arrested and thrown in a filthy dungeon at Covington, by the cowardly butcher who then ruled over Kentucky. On being released by the influence of the Kentucky Senators in Congress, he was again arrested and carried in chains to Washington City, and threatened with court-martial and an infamous death. But no chains could fetter that daring spirit; no dungeons could silence that eloquent

tongue. Like one of those gnarled and sturdy oaks which crown with shade his native mountain home, he stood unbent before the storm, and bade defiance to its fury, and when the storm heaped, and the conflict was ended, Wolford and our party were the victors. He had won to the party of Jefferson the Union soldiery of Kentucky, and the flower of that party which held to the preservation of the Union; he had saved us from the anarchy which shortly after befell our sister States of the border; he had established once for all the supremacy of the Democratic party in Kentucky, and given to it that decisive majority which it holds with iron grasp to this day.

One other bit of history, Mr. Chairman, and I have done: It was in 1865, and the war was ended. Many thousands of the flower of our youth had joined the standard of the South and had followed it to the end with unequal valor and devotion. Bereft of all save honor, the worn and battle-scarred survivors had returned to their homes. They returned to find themselves expatriated, disfranchised and reduced to the political level of the negro. Deprived of their country by solemn act of that country's Legislature, they found themselves strangers at their own hearth-stones, aliens to their wives, to the children of their loins, and to the graves of their fathers. The Legislature of 1865 was in session in this city, and in that body sat Col. Wolford as the member from Casey and Russell. Davis, of Bourbon, the young son of the great Kentucky Senator, had brought forward a bill to repeal these expatriation laws. The bill had been opposed in a great speech by the leader of the House, who was justly regarded as one of the finest orators of his day, and it was believed that a large majority of the Legislature was opposed to the policy of restoring the Confederates to their rights. It was thought the bill would be defeated, and trepidation and fear hung like a cloud over the proudest homes of Kentucky. But it was also known that Wolford favored the bill, and would make the closing speech in its favor. It was known that the most splendid soldier Kentucky had furnished to the Union cause would speak for the men whom he had so often faced in the "perilous edge of battle," and at whose hands he had received the honorable and unhealed wounds he still bore upon his person. The day came. It was a cold day in December. The Representative chamber was filled from base to dome. It was a noble audience, the like of which has seldom been gathered in Kentucky. The noblest of her matrons whose sons were outcasts under this law; the most beautiful of her maidens, whose brothers and lovers were under the ban of this law, were there in the full splendor of that beauty which not even the terrors of that day could dim or lessen. In that audience sat the expatriated sons of Crittenden and Marshall and Breckenridge and Clay—names that had carried the fame of Kentucky around the world as the home of eloquence, of courage, and of genius. Her beauty, her genius, her manhood, her worth were all there—anguish, silent, foreboding. In the midst of that pageant sat the rugged form of Wolford. All eyes were centered upon him. He arose in his place, and supporting himself by his desk, began the oration which will long be remembered as the most magnificent and affecting to which those walls had ever resounded. The Southern soldiers were

the children of Kentucky—the common mother of us all—they were his brothers; they were entitled, not by grace, but by heritage and by right, to every privilege which he enjoyed. For hours he dwelt upon this grand theme. For hours he thrilled and swayed the bosoms of that audience as the storming ways the bosom of the ocean. It was indeed a storm, in which the speaker's gavel and threats of clearing the hall were unnoticed and unheard. It was, in truth, a whirlwind of eloquence and patriotism, which again and again swept to their feet that vast audience in a tempest of plaudits and tears, and which swept forever from the statute books every vestige of the laws which had restricted the rights or stigmatized the honor of the Southern Kentucky soldier. And so having by the arts of the statesman and orator won the Union soldier into the Democratic fold, he now finished the great work of reconciliation and peace by drawing wide open to the Confederates the doors of the same sanctuary of fraternity and equal rights, of law and liberty. From that day to this, there has been no bad blood between the Federal and the Southern soldiery of Kentucky.

I well remember the profound sensation which that memorable speech made throughout the Commonwealth. It was talked of by every fireside. By each fireside it was remembered, too, and told that this was the same Col. Wolford who had written to President Lincoln the celebrated letter, on the conduct of the war, dated July the 30th, 1864—a letter worthy of the pen of Jefferson, a letter which breathed in every line the same grand spirit that has served and sanctified the cause of liberty in all lands and in all ages. It was the spirit that dictated the Declaration of American Independence, that summoned the patriots of 1776 to the camp of Washington and fired their hearts and nerved their arms in the seven years war for independence.

It was remembered too that this was the same Wolford to whom the Union men, of Lexington had publicly tendered a costly sword and spurs, and that because the presentation speech was a savage plea for conquest, confiscation, and plunder, he had, with heroic disdain, refused to accept their gifts.

It was remembered, too, and told around many a blazing hearthstone in old Kentucky, how this same Wolford, while commanding a division of the Federal army at Knoxville, in 1864, was commended by his superior officer to detail his own regiment of Kentuckians to seize Rebel property and recruit a battery of negro soldiers, and how he wrote upon the back of that order the words, which I hope a grateful State will one day engrave upon his monument: "I joined the army to fight the men of the South, not to rob the women and children."

Is it possible, Mr. Chairman, that we can forget now, what we remembered so well and so gratefully then? Can we refuse to rescue this man from the obscurity, and the honorable, but grievous poverty to which his modesty and his wounds have for years consigned him? Can we, oh, honest stewards of a just and honest party, oh, generous men of Kentucky, can we refuse the tardy recognition he asks at our hands? Can we deny him a position which he will honor and adorn, and which will gild the evening of his life with the thought that his party and his people are neither ungrateful nor forgetful? I trust not, I hope not, I believe not.

"Frankfort, Ky., Nov. 14.—Commonwealth of Kentucky, Executive Department:

"That the people of Kentucky may properly observe our country's most hallowed custom, I hereby appoint, in accordance with the action of the President of the United States, Thursday, November 22, as a day of Thanksgiving and prayer throughout the Commonwealth.

"On that day all business should be suspended; the eager pursuit for wealth should cease; the restless struggle for profit and gain should give place to quiet and peace, while a grateful people in their usual places of worship shall give thanks to a generous and merciful God, who has so richly blessed us. Our people have prospered beyond all precedent, our nation in a little over a century has sprung into a position of power and might beyond the boldest dreams of its founders, and today commands the admiration and respect of the entire world. In material wealth we are without an equal. Nature has lavished upon us her choicest bounties. The sunshine of peace and contentment sheds its genial light upon a happy land. To deserve and retain these things, a due recognition should be given to the Divine source from which they come.

"In place of boasting of our greatness let us humbly praise and thank Him to whom we owe all. The strength and we fare of our republic, the endurance of its splendid institutions, and the progress of our Christian civilization, must depend upon the spirit with which our people can observe the purpose of this day and recognize our obligations to the providence of God. In celebrating this occasion, let us remember that no service of song and no words of eloquent praise are so expressive of gratitude to the Almighty as are deeds of charity and kindness to the poor and helpless among us.

"In testimony whereof I have hereto set my hand and caused the great seal of the Commonwealth to be hereunto affixed. Done at Frankfort this, 14th day of November, 1906, and in the 115th year of the Commonwealth.

J. C. W. BECKHAM, "Governor."

"H. C. McCHESNEY, Sec., of State."

**GONE TO MEXICO**

Another Good Family Leaves Adair For the Far West.

Some time ago Mrs. Mattie Vance and two of her children, and Mrs. Margaret Browning, her aunt, left for New Mexico where they have claims. On the 9th of this month, Mrs. Elizabeth Murrell left to join Mrs. Vance in her Western home, but to spend a few days visiting her son, Dr. John N. Murrell, of Kuttawa, Ky. On last Tuesday, the 20th, she was joined by her son, H. M. Murrell, her grand son, W. M. Vance, Miss Susie Mourning, her sister, and Miss Martha Smith, who accompanied her on her long journey. Only Mr. T. A. Murrell, assistant cashier of the Bank of Columbia, Mrs. S. T. Hughes, of Bliss, this county, and Dr. J. N. Murrell, of Kuttawa, Ky., remain in this State.

The News extends its good wishes for their success, and also to the many good people who have staked their claims in that part of the country.

**FLOUR AND SAW MILL FOR SALE.**

**MRS. CHARLOTTE PATTERSON.**

Formerly of Adair County Died Near Moody, Texas, November 10th.

Mrs. Charlotte Patterson died at the home of her adopted son, Mr. John Kilman, near Moody, Texas, on the 10th of this month, death resulting from the infirmities of old age. She was 79 years old and was born and reared in this county where she enjoyed the good will of all who knew her. Many years ago Mrs. Patterson and her husband, Mr. E. J. Patterson, removed to Texas where he died some 10 or 12 years later. Since that time she has spent a part of her time in the lone Star State and a part in this county. For the last three or four years she made her home with her nephew, Mr. G. H. Nell, of this county, but again went to Texas last Spring. She was in a feeble state of health when she left the last time and had just recovered from a severe and sudden spell of sickness. Mrs. Patterson was a lady highly respected and a woman of extraordinary will power and determination. She had sufficient money to live easy and left a few thousand dollars to go to relatives.

**HON. C. C. McCHORD.**

A Hearty and Just Endorsement of Good Official.

The Business Men's Protective Association, of Bowling Green, on Nov. 2, passed resolutions of endorsement, highly complimentary to Hon. C. C. McChord as Chairman of the Railroad Commission of Kentucky. This resolution means that the business people of Bowling Green endorse Mr. McChord so thoroughly that no other candidate for his position need not apply in that part of the state. We have never heard criticism of his official acts from any one and there is no doubt but that he is able, well posted and honest in the discharge of his duties. His place would be hard to fill by an inexperienced man.

**STRAYED.**

A listed barrow, weighs about 60 pounds; crop off right ear and hole under bit in the left ear; short tail. Has been gone about a week. Anyone finding it will please put it up and let me know at Columbia and I will pay them for their trouble. JOHN MURRELL, (col) Burkesville pike, 1/2 mile from court house. 1-2t

**INCREASE IN POPULATION.**

Of More Than Three Hundred Since 1906.

Miss Daut Marcum, City Assessor and Census taker, has completed the taking of the census and finds that within the corporate limits of Columbia there are 975 inhabitants, an increase of 321 since 1906. As above stated this list is strictly within the incorporation and does not include quite a number who reside barely outside the lines.

We take it that if the limits were extended a quarter of a mile, something like 300 names, possibly more, would be added to the census list.

This is an excellent record for our town and we feel justly proud of the showing, especially as Columbia has experienced no boom, but simply a good, healthy growth.

Adair County News Company.

INCORPORATED.

CHAS. S. HARRIS - EDITOR

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Postoffice as second class mail matter.

WED. NOV. 21, 1906.

The President has again stated that he would not accept a nomination for the third term. This statement ought to silence the third termers and take Mr. Roosevelt out of the list of probabilities and possibilities. We have never believed that he would take the chances for the third term. It would be a dangerous precedent for him or his party to establish, and personally dangerous to him as a distinguished and honored President of a great country, for should he accept and be defeated, his greatness, already a matter of history, would be darkened. The fact is that no really true and great Statesman could afford to become a tool in the hands of any political organization for the purpose of satisfying extreme personal or political admirers and enthusiasts, and establish a precedent inimical to the best interest of our form of Government. Republicans will be forced to look to some other individual to steer the old canoe. Vice President, Fairbanks stands well with many but his political associates in the "Hoosier State" don't seem to be wedded to the "Stanpat" theory nor really cemented to the Roosevelt prosperity propaganda. The greatest man in the minds of many, to carry out the reforms so universally demanded is LaFollette. He is able, game and a consistent reformer. After all there is no public man, in all the land, who has ascendancy in this particular over our matchless, W. J. Bryan, and for this reason, as well as many others, Republicans can not figure their nomination equivalent to an election. There will be a race in 1908, are the man who figures a walkover will be mistaken.

You, or at least some of you, may think that a Public Graded School in Columbia would be a burden, or would cut but little figure in the advancement of our thrifty little city. Strike down our two institutions and the two hills they now adorn, and contemplate the result. There would be moving out instead of the constant clamor for homes here. You do not doubt this, and you cannot successfully disprove it. The building of the Lindsay-Wilson and the stimulating influence on the M. & F. put new life in the growth of the town unprecedented in its entire history. The building of a Graded Public School would revive the flagging interest and would do even more for the town than the united influence of the two institutions above mentioned. To send their small children to a free school, of high merit and good advantages, would bring more worthy families to Columbia than the building of the Lindsay-Wilson. They would come to join us in schools and enterprise and would not tarry on the way. A Graded Public School would not cripple either institution we now have, but would place each of them on a higher plane of educational work, and their influence and patronage would extend over broader fields. The Graded Public School means more to the business interest of Columbia than many think. It must come by and by, or the town pay the penalty. The sooner this proposition wins, the better.

The Baptists of Louisville are endeavoring to build a great University in their city and already have over \$200,000 of the money subscribed. We must have universities; and doubtless the one proposed will accomplish much, but the amount proposed to put into it, \$500,000, would build, equip and open avenues to thousands if spent in the extension of High School in country districts. It is the country that needs the schools, needs the awakening influence and the opportunity. There are many counties in our State where a first-class High School is not maintained, and where the people are left to grope along the beaten paths of years gone by, save the influence of our public schools. Those who favor educational advancement, those who have the good of the rising and future gener-

ations at heart, who are pouring into the treasuries of the Great Schools in the centers of population, seem to have lost sight of the greatest benefactor in this line, is not the man who contributes the most to the large schools, but who assists most in the extension of small ones, not the University so much as the opening of opportunity in the hills and hollows, where the wealth of the country or indifference and ignorance of the older people has never opened the door of hope to the youth of their land.

Annie Eley, the 14 year old daughter of John Eley, made a confession in which she stated that her father was the murderer of her mother. Her story is short, but seems to be strong enough to bring the rope to her father's neck. The crime is most revolting, and should the story be corroborated, as told by the little girl, undoubtedly the severest penalty for murder will be inflicted. He denies being guilty and states that he will prove himself innocent.

The President witnessed the actual construction of the Panama Canal, last week. He was heartily received all along the route and by the people of Panama in general.

Mr. Sam Thomas, while gathering corn on a hillside one day last week, had his horses to become entangled in the gear, and while Mr. Thomas was unhooking his team, his wagon ran off and was torn to pieces.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a good digestant which will digest the food eaten, thus taking the work off the stomach. At the proper temperature, a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by Dr. J. N. Page, Columbia, Ky.
